

# I am . . . **POWER** **STRONG**

**CERTIFIED RENTAL®**

## **GREG WHITEAKER/RENTAL SALES/POWER EQUIPMENT - NASHVILLE**

Sometimes opportunities come your way even when you're not looking for them. After working 15 years in the rental equipment business, my opportunity came in 2002, with Power Equipment Company and their rental division, Certified Rental. After checking out Power Equipment and their Certified Rental program, I realized this is the place I wanted to be. Certified Rental and Power Equipment's commitment to always provide low hour, professionally maintained equipment is a huge asset in helping me provide the best value for my rental customers. Our main rental line, Komatsu, is the backbone of Certified Rental, but I know our customers' equipment needs can be varied. From the Takeuchi line to Wirtgen, we try to cover all of our customers' rental requirements. Customer support and service is #1 with me. I firmly believe that by providing my customers with top of the line rental equipment and support from our factory-trained technicians and knowledgeable parts departments, I can help improve their efficiency, reduce their downtime and have a customer for life. Continuing to find ways to take the best care of my customers is what makes me . . . POWER STRONG.
